Partnership Proposal and Agreement

AI Funding Affiliate Manager for the 7 Figures Funding partner program

Prepared for 7 Figures Funding · **Prepared by** Justin Bellware · **Date** September 23, 2026

Part 1: Proposal

What we'll do

7 Figures Funding ("7FF") has more than 13,000 partners, most of them in Zoho. About 50 are active and sending deals, which leaves roughly 12,950 who signed up and went quiet. We will bring them back into conversation and keep them sending deals, using an AI Funding Affiliate Manager that works inside GoHighLevel with a person approving what it sends.

- **One personal text to every quiet partner.** Each kickoff is written for that partner from their own record (name, tier, last deal, niche), followed by a real back-and-forth with everyone who answers.
- **Every partner kept warm.** A touch every two weeks, an offer once a month, a newsletter, and regular partner trainings.
- **Follow-ups on the day promised.** "Check back with me" becomes a task on the right day. A partner with a deal gets a person on the phone the same day.
- **Deals counted by tier.** Every re-engaged partner is tagged with their tier, so each deal they send is counted against the right share.
- **A weekly scorecard.** Replies, opt-outs, deals by tier, and AI spend against the budget.

How it's paid for: usage plus performance

There is no monthly fee. 7FF pays the AI and texting usage at cost, with no markup. We earn a share of each deal from a partner we bring back, set by that partner's tier:

Partner tier	Our share of that partner's deals
CEO	5%
Executive	10%
Apprentice	10%
Free	15%

What it costs to run

The agent runs on GPT-6 Luna Pro through OpenRouter, with GLM 5.3 Flash (open weights) as the fallback, and Jev to read, check and classify. Priced on published OpenRouter, TypeSafe and HighLevel rates:

	Reactivation, one time	**Every month after**
AI, projected	$10.05	$35.72
AI, starting budget (2x the projection)	**$20.10**	**$71.44**
Texting through HighLevel, projected	$355.24	$417.84

The reactivation covers a personal kickoff text to each of the 12,950 inactive partners and every conversation that follows. The monthly figures keep all 13,000 partners on the two-week cadence. Texting is billed by HighLevel on 7FF's own sub-account.

How we roll it out

In waves, each opened only when the one before it has worked: a pilot of 250 partners, then 2,500, then the remaining 10,200. Between waves we check that opt-outs are low, the texting number is in good standing with the carriers, 7FF is happy with the tone of the conversations, deals are being counted by tier, and AI spend is tracking the projection.

What we need from 7FF

- 7FF's NDA, signed before any partner data moves
- Read access to the Zoho partner records: name, tier, contact details, join date and deal history
- A technical session with Brock on the integration
- A GoHighLevel sub-account with API access, and an A2P 10DLC-registered texting number
- SMS consent records for the partners in scope
- A named partner lead who approves offers and program copy
- The deal records used to calculate our share

Part 2: Agreement

This Agreement is between **[7FF legal entity name]**, a [state] [entity type] ("7FF"), and **[Provider legal entity name]**, a [state] [entity type] ("Provider"). It takes effect on the date of the last signature below (the "Effective Date").

1. Services

Provider will run a partner reactivation and relationship program for 7FF's inactive partners (the "Program"), as described in Part 1. This includes the AI Funding Affiliate Manager, the GoHighLevel build, the reactivation outreach, ongoing relationship touches, reply handling, and the weekly scorecard. Provider may use its own staff, contractors and software to deliver the Services.

2. Rollout

The Program starts with a pilot of 250 partners and continues in waves. The parties will agree the pilot's measures of success in writing (email is enough) before it begins, and a new wave starts only when the previous wave meets them.

3. What 7FF provides

7FF will provide the items listed under "What we need from 7FF" in Part 1. 7FF confirms that the partners it puts in scope for texting have agreed to receive texts from 7FF, and will tell Provider about any partner who has not.

4. Usage costs

7FF pays the costs of running the Program at cost, with no markup:

- **AI usage.** Provider pays the model providers and bills 7FF monthly at cost, with a usage report.
- **Texting.** HighLevel bills texting and A2P 10DLC registration fees to 7FF's GoHighLevel sub-account directly.
- **Server and the agent's cloud computer:** [covered by Provider] or [billed at cost, up to $_____ a month].
- **Relationship manager:** [included in Provider's share] or [$_____ a month].

5. Performance share

For each deal submitted by a Re-engaged Partner, 7FF pays Provider a share of [basis, for example 7FF's revenue on the funded deal], set by that partner's tier on the date the deal is submitted:

Partner tier	Provider's share
CEO	5%
Executive	10%
Apprentice	10%
Free	15%

A **Re-engaged Partner** is a partner who was inactive on the Effective Date and who replies to the Program's outreach. A deal counts if it is submitted within [_____ months] of that partner's first reply. A Re-engaged Partner's purchase of the Funding Machine [counts at _____%] or [does not count].

6. Reporting and payment

Provider sends a weekly scorecard. Within 10 days after each month ends, 7FF sends Provider the deals submitted and funded that month by Re-engaged Partners, with each partner's tier. Provider then invoices the performance share and the month's AI usage together, and 7FF pays within 15 days of the invoice. Each party may review the other's records behind an invoice on reasonable notice.

7. Messaging rules

A person approves every message, or a batch under a standing approval with a daily send limit. Texts go only to partners with SMS consent, from a registered number, in daytime hours, with opt-out language, and every STOP is honored permanently. No message promises approval, rates or income. 7FF approves offer copy and anything about program terms, and only 7FF sets commissions and payouts.

8. Confidentiality and partner data

7FF's non-disclosure agreement governs all information 7FF shares, including partner data. In addition, Provider will:

- read partner data from Zoho without writing to it;
- use partner data only to run the Program;
- never sell partner data, or share it outside the Program, except with the service providers that run the Program (GoHighLevel, the model providers reached through OpenRouter, limited to providers that don't train on the data, and TypeSafe for Jev), only as needed to run it; and
- return or delete partner data within 30 days after this Agreement ends.

9. Ownership

Partner data and 7FF's content belong to 7FF. The workflows, fields, tags, pipelines and templates built in 7FF's GoHighLevel belong to 7FF and stay with it. Provider keeps its agent software, code, prompts and methods, including improvements made while delivering the Program.

10. Case study

With 7FF's written approval of the content, Provider may present the Program's results as a case study, including at Funding Machine Live and to other prospective clients.

11. No guarantee of results

Provider will deliver the Services with care, but does not guarantee any number of replies, re-engaged partners or deals. Cost figures in Part 1 are projections from published rates, not fixed prices.

12. Term and ending the Agreement

This Agreement starts on the Effective Date and continues month to month. Either party may end it with 30 days' written notice, or immediately if the other party materially breaches it and does not fix the breach within 15 days of written notice. When it ends, Provider stops all outreach and handles partner data under section 8. Performance shares on deals submitted by Re-engaged Partners before the end date remain payable, as do usage costs incurred before the end date.

13. Liability

Neither party is liable to the other for indirect, incidental or consequential damages, or for lost profits. Except for breaches of section 8, each party's total liability under this Agreement is limited to the amounts paid or payable to Provider under it in the 12 months before the claim.

14. General

The parties are independent contractors. Neither is the other's employee, partner or agent, and neither can bind the other. This Agreement, together with 7FF's NDA, is the parties' entire agreement on this subject, and changes must be in writing and signed by both. It is governed by the laws of [state]. It may be signed electronically and in counterparts.

Signatures

The parties sign this Agreement to show they agree to it.
